

SID HATFIELD THREATENS TESTERMAN-WITNESS

Brewer Tells Jury Prisoner Said He Would Cut Him in Two With Bullet.

Witness Declares Accused Cupped His Hands to His Ear and Said, 'Let's Kill Every One of Them.'

WILLIAMSON, Va., Feb. 23.—Isaac Brewer told the jury today trying to get in connection with the death of Albert C. Felts, a private detective, last May 19 at Matewan, that Sid Hatfield told Brewer he would cut May C. O. Testerman in two with a bullet if the latter "messed around" Hatfield's business.

On the day of the shooting, Brewer testified, he saw Hatfield in Chambersburg hardware store, Fritz Testerman and C. V. Cunningham, a private detective, stood in the doorway.

Witness testified that Hatfield cupped his hands to Brewer's ear and whispered "Let's kill every one of them."

A moment later Brewer said he stepped back from the doorway and Hatfield fired.

"Who did he shoot?" State's counsel asked.

"Albert Felts," was the reply.

"What did Felts do when the shot was fired?"

"He fell. I was pushed forward after the first shot I heard was fired," witness testified, "and then I was shot by Cunningham. I attempted to draw my pistol after being wounded. I was shot again in the hand as I got my pistol out."

His first wound, Brewer said, was in the right breast.

Brewer said he did not know who fired the shot that caused Mayor Testerman's death. He declared, however, that he heard another shot from behind him after Felts fell.

Brewer testified that he fell after being wounded in the hand, but saw Sid Hatfield and several others, including some of the defendants, pass through the store.

As Brewer looked out the doorway he said he saw Hatfield and William Bowman, also a defendant, approach the spot where Felts lay. He testified that Bowman leveled a pistol at Felts and remarked: "Now I guess you'll die."

Witness at no time saw a weapon in Felts' hand.

On cross-examination, J. J. Coniff, defense counsel, sought to learn why Brewer turned State's evidence.

Brewer declared his reason for doing so was because he understood the blame for killing Felts would be placed on him. He admitted he was a relative of Judge McCraw and a former attorney for the prosecution.

LEAGUE COUNCIL PONDERS AMERICAN NOTE ON MANDATES

(Continued From First Page.)

The United States government draws the attention of the council to the request made in that note that the projects of mandates intended for the benefit of natives before they were submitted to the council to be communicated to the United States government, and that it have precise indications of the principles on which the United States conditioned its approval.

The United States government has received the text of the mandate attributed to the Emperor of Japan over all former German islands situated in the Pacific Ocean north of the equator, which text was approved by the council of the league December 12 in Geneva.

The United States government declared it has never given its consent that the island of Yap be included in territories subjected to the mandate of Japan.

It recalls that it has already so informed the government of Great Britain, France, Italy and Japan, informing them at the same time that its reservation rested on the condition that Yap enters necessarily into any project or system of practical communication by cable in the Pacific and that no power can limit or control its use.

At the same time it asks the council, whose action resulted recently from an expert representative of the note, to submit the question to a new investigation which an equitable solution requires.

The action of the United States in asserting its right to participate in the discussion of mandates arising under the covenant of the league created a certain amount of interest in the meeting of the council, which hitherto had been absent. Some newspapers today indulged in mild speculations relative to the official text of the communication and what inferences might be drawn from the fact that it had been dispatched to Europe.

"Some statements" said the Post Dispatch, "made in the note are very interesting."

Girls Make Trousseau During "Working" Hours

(By Associated Press.)

WASHINGTON, Feb. 23.—Work in some government departments moves so leisurely that girl employees have been known to make their trousseaus during "working hours." The senate said today by Senator Smoot, Republican, "The senator said he personally had investigated the matter and found that it has not so much as when I start for an office, word is telephoned ahead that the secretary is to get busy on their typewriters."

able re-entry of the United States into the league. Others, more prudent, remark that President Wilson will quit office on March 4, and the Republican party has spoken too loudly of the league to be able to speak well of it between today and the time when Mr. Harding becomes President. Time must be allowed to do its work, and we think, with others, that the gardens of Luxembourg Palace will undoubtedly see more than one spring before a reconciliation blossoms forth.

The American note was presented to the council in English, and in view of its considerable length, it was decided to have it translated into French, so that each member might have an understandable copy before him when it came up for discussion. It was understood the note probably would not be given out until late today.

TURKS WIN SYMPATHY AT LONDON CONFERENCE

(By United News.)

LONDON, Feb. 23.—Turkish pleas for the restoration of a semblance of the Porte's former territory, honor and prestige were met by the allied Premiers in session here Wednesday with open sympathy.

There was a vast difference between the reception accorded the spokesmen for the Sultan, and that accorded Premier Kiamil, premier of Greece at the previous session.

All partisan rivalries and differences between the delegates from Constantinople and those representing Mustafa Kemal had been sunk in the common cause, and the Turks argued their case in a masterful manner.

The delegation was received in cordial fashion, Lloyd George fettering Tewfik Pasha, grand vizier, upon his health. Briland and Sforza likewise congratulated the aged eastern diplomat sympathetically.

The conference was held in the Queen Anne salon, the historic room where the deliberations preceding Napoleon's exile to Elba took place. Lloyd George was seated at the head of a horseshoe table with Sforza and Briland at either side, while Tewfik Pasha and Sami Bey, representing the two elements of the present Turkish rule, occupied a smaller table inside the ring facing the Premiers.

In spite of the maintenance of separate Turkish delegations, the Kemalists and Constantinopolists were a unit in their requests to the allies. This was admitted by Raif Bey, a member of Tewfik's suite, who said to the United News:

"We are co-operating to the fullest extent, and have eliminated every difference. We are acting for Turkey."

"Today's conference was highly successful, and I am convinced that the allies were favorably impressed with Sami Bey's demands, which were identical with those of Tewfik Pasha."

Announcement by Lloyd George that the contents had agreed in principle to the viewpoint by the Turks was regarded as eliminating the possibility of any dissolution of the conference. It is believed, instead, that

U. S. REGARDS LANGDON AFFAIR DEFINITELY CLOSED

(By Associated Press.)

WASHINGTON, Feb. 23.—The incident of the fatal shooting by a Japanese sentry of Lieutenant W. H. Langdon, an American naval officer at Vladivostok last month, is regarded by officials today as definitely closed, except for the matter of reparations, as a result of the action of the Japanese government in punishing those responsible for the tragedy, and its renewed expressions of regret as conveyed in its reply to the recent American note.

TOKYO, Feb. 23.—Army authorities are quoted by the Nichi Nichi today as declaring the verdict of the court-martial, which investigated the killing of Lieutenant Langdon, of the U. S. Albany in Vladivostok last month by Toshikora Ogasawara, a sentry, to be rightful and reasonable.

The verdict, the newspaper says, preserves the dignity of the soldiers of the imperial army and will satisfy the public, especially the army revisionists, who otherwise might strongly protest to the authorities.

"As the brigade commander (Major-General Nishihara) and the other officers responsible for the affair have been properly punished," the Nichi Nichi adds, "the American Government will fully understand the situation and appreciate Japan's sincere attitude."

WOULD DIVERT ALLOWANCE OF EX-KAISER TO ALLIES

(By United News.)

Berlin, Feb. 23.—Socialist Leader Dittman would like to see the tremendous sums already turned over and still being allowed the ex-Kaiser diverted to payments on the German indemnity.

In an interview today Dittman said that if the contents translated upon limitation of Wilhelm's fortune and the application of the balance to the reparations funds, it would please German workmen generally, who, "as a whole, are angry and resentful that the Kaiser is getting a large income, to provide which they are compelled to pay taxes."

BRANDED BRAZILIAN SLAVE IS LOST IN CITY STREETS

Branched with the letters "L. S." on his chest and wearing around his neck a medal bearing the name, "Raymond Hunt," a Brazilian slave, who escaped from an Englishman passing through Richmond, is at large in the streets of the city, according to an advertisement which has been published in the daily papers.

The slave, who was brought to the city by an Englishman, answers to the name of "Boy," and is described as being about 20 years of age, and weighing about 150 pounds. The negro was kept at a home on Stuart Avenue here for several days for his master, but is believed to have wandered away.
